Some subjects that are linked to construction

Math

Science

Geography

Art/Design

What skills do you think employers need from these subjects?

Choosing one of the jobs, consider:

- How do you think people doing this job would spend their days?
- What do you think would be the most and least enjoyable aspects of the work?
- What subjects do you think these people would be good at?
- What qualifications do you think they need?

Thinking about me: make a “selfie”

- What are my main qualities?
- What evidence do I have to demonstrate these?
- What are the areas I’d like to develop more?
- How can I do this?

What do you already have to offer?

adaptable	creative	logical	self-motivated
ambitious	dependable	optimistic	supportive
analytical	diligent	organised	team contributor
articulate	dynamic	perceptive	tenacious

clear thinker	imaginative	reliable	
committed	inclusive	resourceful	
cooperative	insightful	risk-taker	
courageous	intuitive	self-disciplined	

Can you think of any more personal qualities?

Sometimes it is difficult to identify our own strengths.
Turn to the person next to you and tell them what their strengths are.

Thinking about me – make a “selfie”

What are my top qualities?	
Quality	Evidence

What are the areas I'd like to develop more?	
Area	What could I do to get more practice?

What does your future look like?

What kind of future do you want?

Things that will be essential	Things that will be important	Things that would be nice to have	Things to avoid
